Lillian Caperilla is a licensed, dental hygienist in Pennsylvania and her professional career has included the roles of an expanded function dental assistant, clinical dental hygienist, dental hygiene educator, professional speaker and manager of continuing education and university sales. Lil is a 1980 graduate of Montgomery County Community College with her A.S. in applied science and certificate in dental hygiene. In 1989, she completed her bachelor’s degree in dental hygiene education at Thomas Jefferson University and in 2004, completed her master’s in education, instructional design and training from Penn State University.

During Lil’s tenure as a faculty professor at Harcum College Dental Hygiene Program, she served as the President of Pennsylvania Dental Hygienists’ Assoc. before coming aboard with Premier Dental as Manager of Professional Education twelve years ago. Her highest accomplishments have been the delivery of well over 400 seminars nationally and internationally. Of most recent achievements, Lil was honored as a new inductee to the Alumni Hall of Fame at Montgomery County Community College and a 2010 recipient of the ADHA Irene Newman Award in Professional Leadership and Achievement.
Course Title, Description & Objective

“The Changing Face of Dental Hygiene”

Description: As we observe the reorganization of healthcare delivery in our country based on access to care as well as rising healthcare costs, the dental hygienist is now poised to be the key preventive oral health provider. This program will highlight the potential skills necessary to adapt to a changing model for the next decade. A hands-on component will furnish attendees with time to practice, experiment and ask questions regarding hand instrument preferences.

Lil Caperila served as a select panelist during a leadership conference held by the American Dental Hygienists’ Assoc. in February of this year. The goal of the conference was successful in guiding licensed dental hygienists in preparing themselves for alternative career paths that will provide both career portability and job satisfaction for the future. This program will highlight skills that are core in the evolving role as an oral health practitioner and key leader in community healthcare.

Objective: The participants will be able to:

• Review and discuss the evolving role of a dental hygienist from its beginnings to today’s leader in healthcare.
• Compare various diagnostics and assessments tools for classifying risk levels in oral diseases.
• Inspect various instrument designs and create appropriate set-ups based on patient classifications.
• Empower and coach patients to improve lifestyle and healthier behaviors using the process of “Motivational Interviewing”.
• Recognize our skills set in promoting esthetics as well as prevention.
• Plan their education and business opportunities to maximize their greatest strengths in the future healthcare team.
• Apply skills during hands-on activities in sharpening and deposit removal using typodonts and instrument set-ups.

Handouts will be available for download and printing on 10/1/12 at http://go.westliberty.edu/health-sciences/academics/dental-hygiene/

Event Schedule
Wheeling Park White Palace, Wheeling, WV
October 12, 2012
7:30—8 am: Check-In/Continental Breakfast
