Biology Electives: 5 credit hours of any combination of BIO 207 Fundamentals of Ecology & Biodiversity and/or BIO 300-400
Suggested courses: BIO 317 Immunology, BIO 335 Arthropod Diversity, BIO 346 Mycology, BIO 404/405 Ecology & lab, BIO 408 Herpetology, BIO 432 Histology, BIO 440 Conservation Biology, BIO 472 Cell Biology, BIO 479 Internship

General Electives: Any 300-400 level general electives to total 120h (120h required for graduation; roughly 3-6 credit hours dependent on choices in program).

Please check prerequisites for admission at each school for which you intend to apply by spring term of the sophomore year.

Most veterinary schools require **veterinary experience** as a prerequisite. The number of hours required by each school may vary. Please check veterinary experience requirements as you explore various programs and their prerequisites for admission.

Admission to veterinary school is highly competitive. Active research, summer internships at veterinary facilities/programs, community service, and other activities are necessary to help your application stand out during the admission process.

Courses may not be offered every semester/year; please consult with Biology advisor.
