## **PROCESS FOR HIRING A STUDENT WORKER**

- Hiring managers must complete a Student/GA Employment Requisition Form, details starting on page 4.
- After approvals, the Student Employment Coordinator posts the job.
- The Student Employment Coordinator alerts students that jobs have been posted.
- Students must complete an application in NEOGOV/NEOED to be considered for the job.
- Once a student applies for a job, the Student Employment Coordinator will forward applications to the hiring manager through NEOGOV.
- The Student Employment Coordinator will check applications for work study eligibility and notify the hiring manager who these students are.
  - It is recommended to hire work study eligible students first.
- Hiring managers can mark selected students as “Pass” in NEOGOV or email the Student Employment Coordinator who they would like to hire. Instructions start on page 10.
- The Student Employment Coordinator will contact the selected students.
  - New student hires who have never worked on campus are sent instructions through email for NEOGOV Onboarding to get them on payroll.
  - Returning students, who have worked and are on payroll, will be checked for accuracy.
- Students must have a social security card, be authorized to work in the United States and complete all necessary new hire paperwork to work on campus.
- It can take two to three weeks to get a student approved in payroll.
- Once a student is approved, an email is sent to the student and the hiring manager to let them know they can start working.
  - No student should begin working until the Hiring Manager receives a verification of email of approval from the Student Employment Coordinator.
- Students can get their fingers scanned for the time clock with the assistance of the Student Employment Coordinator.
- Students can also be put on a time sheet.
  - All time sheets must be signed by the hiring manager or timekeeping manager and then be turned in to the Student Employment Coordinator in person or via email on payroll Fridays.
- All student workers must have work to complete during scheduled hours. If no work is available, the student should have their hours adjusted or be sent home for the remainder of that shift.
